**HOUSE OF SCIENCE**

This term we are using some fantastic resources from the House of Science for our science learning, and for the last couple of weeks we have been studying volcanoes and the composition of the earth. Right, **Anaea, River and Leia** investigate the earth's structure. Leia is covering the earth with a crust of sand.

**Goldfish are the only animals that can see both infrared and ultraviolet light.**

**Seaweed.**

Our next block of science learning coincides with Sea week next week, and we will be conducting experiments and learning about the ocean.

**PARENT GROUP NEWS** Our Annual General Meeting is coming up on 19 March (provisionally), and this year there are a number of officer roles which will need to be handed over. Our Chairperson, Treasurer and Secretary are all parents of Year 8 students, and it is time to hand over the reins to parents of the younger children at school. Also at the AGM, Parent Group will decide on the donations to be made from the 2024 Festival. This is an important meeting, and we encourage as many of you to attend as possible. We need you parents!

**Cakes and Juicies for sale each Friday.** Each Friday we have a parent baking roster to provide cakes for sale to our students. Funds raised go towards parent group funds. Watch out for your name on the termly roster and when it's your duty day we would love you to bake enough for approximately 30 pieces of cake/slice to sell for \$1 each. Please send your child with one dollar for a piece of cake and one dollar for a Juicie if you wish. They should also bring a healthy lunch on Fridays.
